Rationale for the approach to the use of Pupil Premium Funding

The approach adopted by Romero is based on the principals and guidance of Marc Rowland, Deputy Director of the National Education Trust documented in the NET publication; *'An updated Practical Guide to The Pupil Premium'*, Marc Rowland, 2015.

'One of the best measures of an advanced education system is how it treats pupils who are on the margins. Great schools are a cradle for resilient, effective and confident learners regardless of their socio-economic background. In his role as Deputy Director of the National Education Trust, Marc Rowland visited more than 100 schools across the country to discuss and review how they are using the Pupil Premium grant to improve outcomes for disadvantaged learners.'
